

# Manning's

In Spring 22 we trialled an outbound marketing scheme with APAC Reach, having been disappointed by the lack of tangible results provided by our previous marketing company, and were instantly thrilled to have made the jump.

Amy and her team were fantastic to work with, took time to fully understand our business and to map out a cohesive plan for approaching new clients, which they then executed with vigour.

The results were tangible, and as such we quickly increased from a trial to a full working relationship which continued to drive new qualified leads for our business.

We would highly recommend their services to others.
