

MAXIMUM PERFORMANCE

"Maximum Performance initially engaged indigo leaf back in December 2017 to help drive new business. Over an eighteen-month period, they continued to deliver a steady stream of leads for us to work from, for just 1.5 days per week commitment."

"they were tenacious and professional in their approach to our prospects, and having fully understood our extensive range of learning and development service offerings, they were able to nurture, qualify and then book appointments for our internal team."

"On average we were getting around 5 appointments per week and indigo leaf delivered all the associated administration for the appointments, which was a great help in complementing our busy schedules. We would not hesitate in recommending indigo leaf and Apac Reach to other companies looking for a professional sales support service."

Michael Bentley, Owner - Maximum Performance
