

We tasked Apac Reach with reaching out to an extensive list of state schools with a view to securing video meetings with our team.

In a short space of time we saw bookings being made regularly, which increased in volume as we progressed. We can truly say that Apac Reach has been instrumental in changing the profile of Purple Ruler from humble beginnings to a successful and thriving tuition provider.

Communication with their team is excellent, and their flexibility to adapt with us as we have grown has enabled us to improve our services to schools that are in desperate need for external support. We cannot recommend Apac Reach highly enough, a 5 star team.
